

The history of Icelandic stamps in text and pictures is published on the occasion that a century has passed since the first Icelandic stamps were issued.

## Icelandic stamps for one hundred years

The history of the Icelandic stamp

## Icelandic stamps for one hundred years

The book will be published in Icelandic and English later this year. It will be printed in choice paper and covered with highly finished binding.

In the book there will be colour prints of all the Icelandic stamps that have been issued since 1873. In addition, there are to be seen colour prints of some varieties of stamps as well as those of rare stamped envelopes.

The author of the book, Jón Aðalsteinn Jónsson cand. mag., has brought many things to light that were previously unknown in the history of Icelandic stamps. The book will therefore be of great value to those who are interested in Icelandic stamps.

The book will be sold to those who wish for it according to the enclosed form of order at the price of 3100 Icel. kronur. The cost of sending and an elaborate small box for the book are included in the price.

The size of the book will be 190x250 mm, and it will contain some 300 pages.
